

DNAAdoption Course FAQs

In order to protect our site from spammers, newly created accounts will be removed within 24-48 hours if no class selection has been made or the new account is not confirmed via email verification.

Where are the classes held?

All DNAAdoption.com courses are held online. You can log in from any internet location. It is recommended that you use a computer that contains your DNA matches. We suggest that you use Microsoft Excel although other spreadsheet programs are fine. The instructions will be for Excel and Google Drive Sheets. You may have to Google how to handle it in your spreadsheet.

Do I need to sign up for each week or just one session?

Each session contains 2-4 weeks of coursework. There will be an additional six weeks for students to complete the coursework. There is no need to sign up for more than one class of the same type.

What happens if I can't make a class?

The answer varies by the class in which you are enrolled.

Basics of Working with Autosomal DNA -- Each session contains four weeks of coursework. There will be an additional six weeks for students to complete the coursework (a total of 10 weeks).

Y-DNA – This is a 3 week course and the course will be open for a total of 6 weeks. The last 3 weeks are to allow for anyone that missed a class to catch up and ask additional questions.

Just for Absolute Beginners – This is a 2 week course and the course will be open for a total of 6 weeks. The last 4 weeks are to allow for anyone that missed a class to catch up and ask additional questions.

Advanced Autosomal DNA - TBA

Can I work through all the course material of lessons in one week if I want?

A new lesson is released each week for you to work at your pace. There are teachers/assistants that are available during the week to answer any questions. There is a lot of work involved in each lesson.

Is there a set time I have to be at my computer for class?

No, classes are released on Fridays (except for the Intro one day classes which are scheduled on Saturdays), you can work on them at your own pace. The forum is always open for questions and

someone will answer them as soon as possible. We usually have students for the UK and Australia so someone is usually logging in at all hours.

Where do I login to the course?

<http://moodle.dnagedcom.com/login/index.php>

I just enrolled and I can't see any class material. My class starts in next month/week.

The classwork/assignments will appear once the class officially begins. Each week after the first week (for multi week courses), new assignments will appear on Friday. Until then, you can view additional support documents at www.dnaadoption.com go to the Tab for Get Started.

I'm trying to enroll but the class I chose says no self-registration

Any class with the PayPal "P" on the far right side of the screen, can be self-registered. If there is no option to enroll, that means the class is full and no more registrations will be accepted unless there is a cancellation. Our classes often fill very fast.

I would like to re-take a class I have already participated in previously?

Former participants are allowed to re-take the same class a second time for free. You must have been enrolled in a previous course within the past year. Contact Moodle@DNAadoption.com for availability and instructions.

Do you accept any other form of payment besides PayPal?

Our preferred method of payment is PayPal. If you cannot pay via PayPal, please contact us at Moodle@DNAadoption.com
