

## How to save a family from an Ancestry tree to your tree

To save a family from an Ancestry tree to your tree, go to the person you wish to save. In the right hand corner you will see a + sign “Save this person to your tree”.

Click on the + sign, chose the tree you wish to save it to and start typing in the person’s name. A list of selections from your tree will come up.

If you don’t see the + sign and “Save this person to your tree” go to the “More options” tab and the drop down menu will show it.

A new window will come up with a list of those people from this family who are in the tree you wish to save. Check the “Add” box next to the name of those you wish to save.

**H Willis Knight**  
in the hammond Family Tree Ancestry Member Tree

Name: H Willis Knight

Birth Date: Apr 1889

Birth Place: Alabama, United States **NEW**

Once you've selected the people you want to import, click on "save to your tree" at the bottom.

**Place:** Alabama

---

**Death**

**Date:** 30 March 1914

**Place:**

Then your tree will come up showing the newly added people. Click the "back" button twice to get back to the tree you are importing if you want to import more people.

In this case I was able to save 15 people to my tree.
